# 10994BC Data Analysis Fundamentals using Excel

Course Duration: 2 Days

#### **About This Course**

The main purpose of the course is to give students the ability to add analysis capabilities to Excel spreadsheets and to provide students with a foundation to learn about more advanced data analytics with Excel or Power BI.

#### **Audience Profile**

This course is intended for anyone who wants to take the data analysis technologies in Excel beyond formulas and add more advanced capabilities such as dashboards, hierarchies, and relationships.

### **At Course Completion**

After completing this course, students will be able to:

- Create an Excel report
- Create an Excel table
- Create a pivot table and pivot chart
- Create a dashboard and analyze data
- Create Hierarchies
- Create an Excel data model and connect to external data

#### **Course Outline**
